**Bipolar saline electrodes are designed and validated to fit the Olympus bipolar WA22366A active and the WA22367A passive working elements. Use with UES-40, ESG-400, or PK SuperPulse generator systems.*

Product Name	Part Number	Product Description
Disc™	BIPDDSC	Plasma Disc Electrode, 6/box
12 Degree Medium Cutting Loop	BIP12CLM	12 Degree Medium Cutting Loop Electrode, 6/box
30 Degree Medium Cutting Loop	BIP30CLM	30 Degree Medium Cutting Loop Electrode, 6/box
12 Degree Large Cutting Loop	BIP12CLL	12 Degree Large Cutting Loop Electrode, 6/box
30 Degree Large Cutting Loop	BIP30CLL	30 Degree Large Cutting Loop Electrode, 6/box
Needle Electrode	BIPNEEL	Needle Electrode, 6/box
Medium Bladder Loop	BIPMBLA	Medium Bladder Loop Electrode, 6/box
Bipolar Cable, ESG-400	BIPCBESG	Single-use Bipolar Cable, ESG-400 Generator, 3/box
Bipolar Cable, PK SuperPulse	BIPCBPKS	Single-use Bipolar Cable, PK SuperPulse Generator, 3/box

ESG-400 Compatible Cable

INTRODUCING

NAUTILUS

UNRIVALED FLEXIBILITY

Where Design Meets Functionality

True 360° table access with free-standing treatment table. Unrivalled flexibility through C-arm parking position.

High-resolution imaging from unprecedented angles with the flexible c-arm and table movements. **Independent or with sophisticated synchronization.**

Urology Applications

The unique design of the Nautilus®, makes this urotable the ideal workstation for a wide range of urological procedures such as:

Laparoscopic Procedures

Transurethral Procedures

Diagnostic Urology Procedures

Contrast Studies

Percutaneous Endourology Procedures

Micturition Cystourethrogram (MCU)

Extending New Dimensions

Raising new standards in radiation management through the flexible positioning of x-ray tube under table.

- 1 Free Table Access**
C-arm parking position with 90° swiveling.
- 2 Motorized Free-standing Table**
Isocentric and non-isocentric Trendelenburg table tilting.
Fully radiolucent table top made of carbon fiber.
- 3 43 x 43 FPD with SID-hub**
Detector-to-source flexibility captures KUB (Kidney-Ureter-Bladder) in one shot.
- 4 21" Monitors**
Easy access view to monitors from any position; interfacing with additional equipment (e. g. endoscopes, ultrasound).
- 5 80 kW Advanced High Frequency Generator**
High efficiency and distinguished performance.
- 6 Accessories Shelf**
Three compartments for surgical equipment.
